

Models

3000

&

3600

Our high capacity ironer frame design, available with 30" or 36" diameter Heated Cylinders.

Provides high quality drying and ironing of sheets, table linens, pillowcases and more flat linens. Optional folding can also be integrated into the machine for improved labor efficiencies.

Available in Gas (G) and Steam (S) models.

Why Sharper Finish

- Heavy Duty design:** Our machines utilize heavy duty frames, rolls, drives and other parts with longevity in mind so that the machine can last decades if maintained correctly.
- Ease of Maintenance:** Our base machines use no proprietary parts, as well as easy access doors and maintenance points for the drive, control panel, guide tapes, and interior of the machine.
- Experience in Industry:** We have been in business for over 23 years under the current owners, with millions of hours of machine use under our belt, which has allowed us to fine tune our machines to provide a high quality finish.
